The cyber escape room consists of three zones (zone 1, zone 2, and zone 3). Each of these zones owns a set of clickable objects. You can travel between the zones using black arrows (see the picture below).

Click the items in your surroundings to find clues (PINs (numeric or text), keys) that you'll need to escape. When you click on some items they will lead you to solve puzzles to obtain these clues. Use the clues you obtained to unlock the remaining items and advance through the game. You need to unlock all these items in order to unlock the secure lock, which currently prevents you from exiting this facility.

Start the game by going between the zones and clicking the items, looking for keys or PINs.
Remember that each Key or PIN can unlock only one lock. Th go between the zones and try to find where you can use it.
Examples :

A key that you use in zone 1 or zone 3.
